Presentation from,
Charles "Chuck" Durrett
Californian Cohousing Architect

the award-winning cohousing architect who has assisted in the development of over 50 communities and who is accredited with the cohousing concept in the U.S.

IMAGINE . . .

Sustainable intergenerational neighbourhood design

Individual homes combined with extensive common areas

Shared spaces for meeting, dining, creating, workshops, storage, etc.

A salmon-bearing creek with swimming holes & proximity to the township of Vernon

Community organic gardens, edible landscaping, harvesting renewable energy

Environments designed for pedestrians, kids and active adults

Energy efficient & sustainably-designed buildings

Designing & building from the ground up with future residents
